Minimal Baroque

### Minimal Baroque

The popularity of the Baroque style dates back to the 18th century. Its elaborate details and complex ornamentation continues to astound us to this day. In this collection the Baroque style comes back to reclaim its fame, only this time as "modern Baroque." In an unexpected blend of minimal and classical lines and bold colors of red, pink, blue and brown, Modenese Gastone once again puts Baroque on the front lines. This design can be summed up in one word: Fusion. The fusion of two worlds; classical and modern, of design and tradition.

You have just taken an inside peek into the soul of Baroque furniture with an edge. This is a side of Baroque you've never seen before and one which you'll never get enough of. ■
